## HIGHLIGHTS

- **Access to and from the base:** The experienced staff can advise you of the closest airport, train station or car depot.
- **Ease of navigation:** No experience required. Prior to departure, a captain's handbook is provided and a demonstration is given at the base. Technical assistance during your cruise is available if required. Average cruising per day is 5-hours. We have considerable expertise in this unique type of holiday and are happy to share our personal cruising experience with you.
- **Locks:** Most locks are automatic and operated by a lock keeper, some canals have manual locks. The time taken to go through a lock is 15-20 min on average (but varies depending on season and traffic). Our team can advise which canal is best suited to your requirements.
- **Where to moor:** Generally, you can moor anywhere you want along the public canals or riverways. There are some restricted and private areas, but in most cruising regions, finding free moorings is not a problem. You may however prefer to moor in a public or private marina which, for a fee, offer facilities such as electricity hook-ups, water refill, showers, snacks, etc. Moorings in marinas are subject to availability so we recommend you call the marina a few hours before your arrival.
- **Bikes:** We recommend you confirm bikes in advance. You can explore the surrounding towns and villages or simply ride along the footpath in search of a baguette!
