The traditional polar bear season encompasses the months of October and November. During this time, the polar bears congregate on the coast in large numbers while waiting for the Hudson Bay to freeze. This allows them passage onto the Bay where they will feast on seals until the

spring. Our Great Ice Bear Adventure takes place during this period of abundance.

You will fly 30 km north of Churchill to this exclusive polar bear lodge along the Hudson Bay coastline. The remote location allows for a much wider range of wildlife viewing than would be possible in the town-based tours. Beyond the majestic ice bears, you may also see wolves, moose, Arctic foxes, ptarmigans (a furry footed grouse), and snowy owls, to name a few. After your time at the Lodge you will be transferred back to Churchill for a Tundra Buggy® tour where you'll enjoy more time with the beautiful white bears.

Upon arrival, your hosts will provide a tour and show you to your room. Lunch will be served soon after, and before heading out on your first excursion, you'll be thoroughly debriefed regarding your stay in polar bear country. This day includes a guided hike on our rugged and starkly beautiful coastline, an interpretive slide show featuring the wildlife of Hudson Bay, and hopefully a clear night for viewing the Aurora Borealis.

Dymond Lake Ecolodge features an Aurora viewing tower for northern lights observation. All this will be topped off with a lunch and dinner where your hosts and guides will regale you with tales of life and adventures in Canada's Arctic.

Day **3 - 5** Dymond Lake Ecolodge

Each morning after a hot breakfast, your guides will outline a plan for the day's excursions. If there are bears near the Lodge, your morning tour may be delayed to take advantage of these photo and observation opportunities. The walks are comfortably paced as they are geared towards plenty of viewing and photo opportunities.

Back at the lodge, enjoy entrée hour followed by one of our signature tundra-inspired meals. Evenings typically include an informative lecture or slide show presentation narrated by one of Churchill Wild's knowledgeable guides or staff. On clear nights, you may also have a chance to view one of the spectacular aurora borealis displays common at this latitude.

Bedtime is at your leisure and you can rest easy knowing you won't miss out on anything. The staff monitor the compound and skies and will rouse you if the aurora or a nocturnal polar bear make an appearance.
