The lodge is located in Farewell Harbour on Berry Island on 10 acres of beautifully forested land. With the exception of the lodge property and 3 adjoining acreages, Berry Island is within the border of world-renowned Broughton Archipelago Marine Park, which is located between Vancouver Island and the mainland of British Columbia with Queen Charlotte Strait to the west and Knight Inlet to the east. Farewell Harbour is a beautiful protected anchorage along the famed inside passage route to Alaska.

With its unparalleled hospitality, awe-inspiring surroundings, and a commitment to conservation, Farewell Harbour Lodge has been an oasis of tranquility, inviting visitors to embrace the wonders of nature and forge a deep connection with the untamed world.

The primary lodge building and common area features a comfortable lounge and dining room, bar and a large brick fireplace surrounded by large windows and a wraparound deck boasting spectacular views of the harbour with its south and west exposure (great sunsets!). The expansive decks continue as a boardwalk along the shore, leading to eight private oceanside suites with ensuite bathrooms, gas-fired stove and extra-long double beds. A ramp leads off the main lodge to our floating lodge below, featuring four additional suites, each with a private bathroom for twelve rooms in total. All lodge suites and common areas have unique design features incorporating natural cedar and local materials and art from the area that offer a distinctive, relaxing 'west coast' feel.

Farewell Harbour Lodge has been renowned for its diverse range of activities that allow guests to immerse themselves in the untamed beauty of its surroundings. From exhilarating wildlife encounters to serene explorations of the pristine wilderness, the lodge offers an array of experiences that cater to every adventurer's desire. Embark on guided kayaking expeditions through the glassy waters, where you can paddle alongside playful seals and marvel at the majesty of breaching whales. Set out on thrilling whale-watching excursions, where expert guides unveil the secrets of the ocean and provide glimpses of orcas, humpbacks, and porpoises as they gracefully navigate the waves. For those seeking a more intimate encounter with nature, embark on guided hiking trails through ancient forests, where every step unveils the wonders of towering trees, cascading waterfalls, and an abundance of wildlife.

Farewell Harbour Lodge offers a variety of different types of bear viewing excursions in search of both Grizzly bears and Black bears. Bear viewing season runs from early June to mid-October. Farewell Harbour Lodge does not use viewing platforms or utilise artificially created bear habitat to enhance the viewing opportunities. They prefer to seek out bears in their natural environment and view them from the same eye level as the wildlife around. All small group sizes and operated by trained and knowledgeable staff.
